

# Be Internet Legends.

Dear parent or carer,

At school, your child has been discovering how to be safe and confident online as part of Google's **Be Internet Legends programme** in partnership with Parent Zone. They have pulled together some things that you can do at home to keep your children entertained (and safe) whilst they are away from school.

This '**Legendary Learner Pack**' is full of **activities and useful advice for families** to try at home. It can help you to keep your children occupied whilst reinforcing some of the important skills they've been developing at school, including...

*Being Kind online and using the internet for positive online activities - something families will be doing a lot in the coming weeks and maybe months.*

The activities also include links to **Interland** - an online game which brings Be Internet Legends to life. You can play it together - or just let your child play it knowing they are doing something fun and educational. Find it here [g.co/interland](https://www.google.com/interland)

If you want to find out more about Be Internet Legends, don't hesitate to visit [g.co/BeInternetLegends](https://www.google.com/BeInternetLegends), or get in touch with us on [legends@parentzone.org.uk](mailto:legends@parentzone.org.uk). We're always happy to help.

Have fun!

The Be Internet Legends Team
