

# Homework/Extension

## Step 11: Add 2-Digit and 3-Digit Numbers

### National Curriculum Objectives:

Mathematics Year 3: (3N3) [Recognise the place value of each digit in a three-digit number \(hundreds, tens, ones\)](#)

Mathematics Year 3: (3C1) [Add and subtract numbers mentally, including three-digit number and tens](#)

Mathematics Year 3: (3C2) [Add and subtract numbers with up to three digits, using formal written methods of columnar addition and subtraction](#)

Mathematics Year 3: (3C4) [Solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction](#)

### Differentiation:

Questions 1, 4 and 7 (Varied Fluency)

**Developing** Match two calculations to the correct answers with exchanging in one place value column and using Base 10.

**Expected** Match three calculations to the correct answers with exchanging in up to two place value columns using numerals and some pictorial support.

**Greater Depth** Match three calculations to the correct answers with exchanging in up to two place value columns using numerals, words and some mixed pictorial representations.

Questions 2, 5 and 8 (Varied Fluency)

**Developing** Identify whether the statement is true or false, using exchanging in one place value column and using Base 10.

**Expected** Identify whether the statement is true or false, using exchanging in up to two place value columns and using numerals and some pictorial support.

**Greater Depth** Identify whether the statement is true or false, using numerals in a linear arrangement and exchanging in up to two place value columns.

Questions 3, 6 and 9 (Reasoning and Problem Solving)

**Developing** Explain if a statement is correct using exchanging in one place value column and using Base 10.

**Expected** Explain if a statement is correct using exchanging in up to two place value columns and using numerals and some pictorial support.

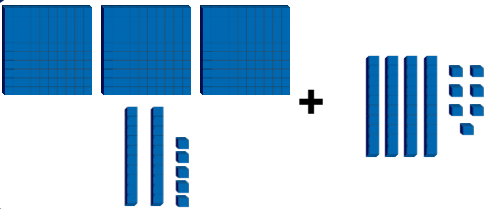

**Greater Depth** Identify missing numbers in a column addition and explain if a statement is correct using exchanging in up to two place value columns and using numerals, words and some mixed pictorial representations.

# Add 2-Digit and 3-Digit Numbers

1. Match the calculation to the correct answer.

A. 

1. 

B. 

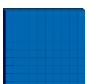

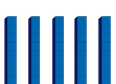

2. 

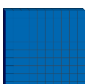

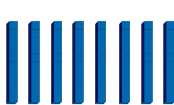

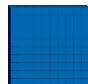

VF  
HW/Ext

2. True or false? The calculations below are correct.

A.

	Hundreds	Tens	Ones
			
+			
			

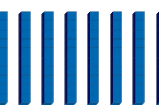

B.

	Hundreds	Tens	Ones
			
+	 		
	 		

VF  
HW/Ext

3. Maya has completed the addition below. Elaine says,

	Hundreds	Tens	Ones
	 		
+			
	 		

The answer should be 292.

Is she correct? Explain how you know.

RPS  
HW/Ext

# Add 2-Digit and 3-Digit Numbers

4. Match the calculation to the correct answer.

A.

B.

C.

1.

2.

3.

VF  
HW/Ext

5. True or false? The calculations below are correct.

A.

	Hundreds	Tens	Ones
+			

B.

	Hundreds	Tens	Ones
+			

VF  
HW/Ext

6. Max has completed the column addition below. Val says,

	4	4	8
+		7	4
	4	2	2
	1	1	

The answer should be 522.

Is she correct? Explain how you know.

RPS  
HW/Ext

# Add 2-Digit and 3-Digit Numbers

7. Match the calculation to the correct answer.

A.

B.

Six hundred  
and eighty-nine  
+ 31

C.

$$65 + 667$$

1.

Seven hundred  
and thirty-two

2.

3.

VF  
HW/Ext

8. True or false? The calculations below are correct.

A.

$$462 + 43 = 501$$

B.

$$46 + 266 = 312$$

C.

$$296 + 24 = 320$$

D.

$$617 + 82 = 698$$

VF  
HW/Ext

9. Tim has asked Amy to help him with the column addition below. Amy says,

	3	4	8
+		7	
	4		2

The calculation is  
348 + 74, and the  
answer is four hundred  
and twelve.

Is she correct? Explain how you know.

RPS  
HW/Ext

## Homework/Extension

### Add 2-Digit and 3-Digit Numbers

#### Developing

1. A) 1; B) 2
2. A) true; B) false, the answer is 305
3. Elaine is correct because Maya has not added the exchange in the tens column.

#### Expected

4. A) 2; B) 3; C) 1
5. A) false, the answer is 505; B) false, the answer is 312
6. Val is correct because Max has not added the exchange in the hundreds column.

#### Greater Depth

7. A) 2; B) 3; C) 1
8. A) false, the answer is 505; B) true; C) true, D) false, the answer is 699
9. Amy is correct that the calculation is  $348 + 74$ , but her answer is incorrect as she hasn't added the exchange in the tens column. The answer is 422.
