

Dear Parents

*Hello from Nettleham Infant and Nursery School!*

We are continuing to develop our new Nursery outdoor area and thanks to many generous contributions we have already made a superb start. We are planning to extend our music area and again any contributions of the following would be welcomed:

- Old metal pans and lids (no glass please)
- Ribbed vacuum cleaner pipes
- Wind chimes

We also need any waterproof all in one suits or waterproof trousers to fit nursery aged children. As we always make sure that the children go outside whatever the weather we have recently had some very soggy little ones and as the weather is getting wetter by the day these donations would be very useful.

Finally (and I know this is a long shot!) we really need a large garden table (the sort with a hole for a parasol in the centre). If you would like to donate one to the Nursery then we will make sure that it gets lots of use - we don't even mind giving it a coat of paint if needed!

Many thanks

Rachael Rideout

Nursery Teacher
