

# Calavera Papel Picado Bunting

This bunting, made of skulls in the traditional Mexican style, makes a great addition to your home for any Day of the Dead or Halloween celebration.

## You will need:

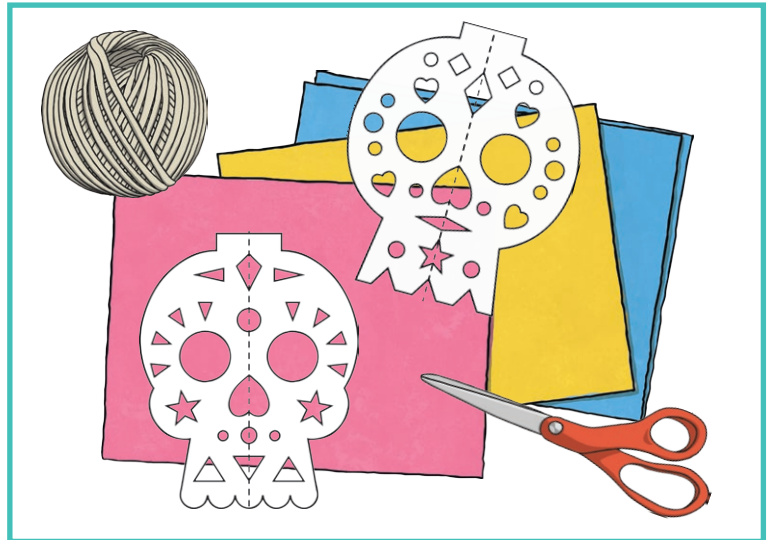

coloured paper in at least three bright colours, cut to A5 size

scissors

string

sticky tape

calavera (skull) template printed into stiff white paper or card

## Instructions:

1. Print the calavera templates onto the white paper or card and cut out.
2. Place a template onto a piece of coloured paper, and fold both along the dotted line on the template.
3. Cut around the skull shapes. Be careful when cutting the shapes in the middle of the skull; younger children will need adult support with this. Tip: you may wish to refold the paper gently to help cut the interior shapes.
4. Alternatively, you could cut around the basic skull shape, then use a pencil to trace the interior shapes onto the coloured paper before cutting out.
5. Repeat the process until you have enough calaveras (skulls) for your bunting.
6. Attach the calaveras at regular intervals to the string using sticky tape.
7. Display the calavera papel picado bunting in your home in time for your Day of the Dead celebrations.
