

LO: To consider the different job roles in Chembakolli

It's time to find work in Chembakolli!

Have a look at the map of Chembakolli below and label anywhere where you might be able to get a job.

On the next page, create a job advert page for the Chembakolli Times considering what skills and attributes you might need to be good for the given job role.

There is also a blank copy if you wish to do the drawings yourself.

For example, if you were looking to employ a honey farmer to work in the forest. The advert might need to say:

What they will do? Collect honey from the bee hives.

What skills or attributes do they need? They need to be calm, quiet, fit (collecting honey from the hive means climbing trees!), and not be allergic to bee stings!

Honey Farmer

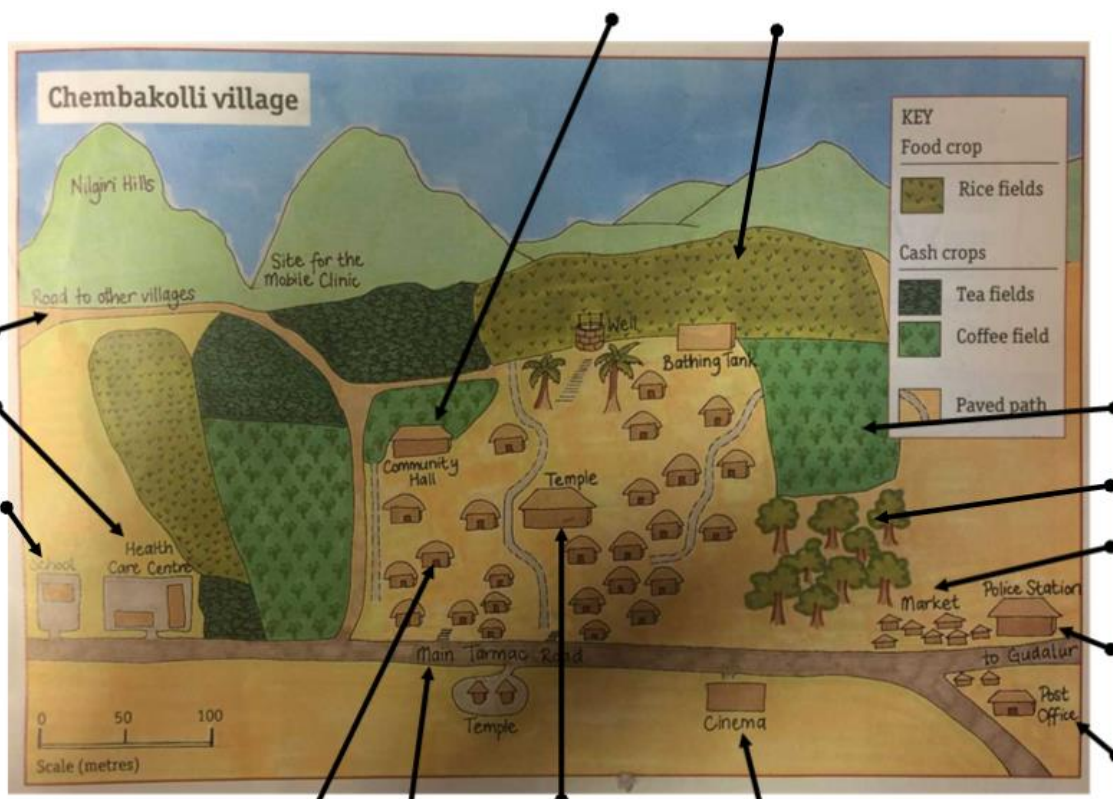

Must be calm, quiet and not be allergic to bee stings! Earn money collecting honey from the bee hives.

** A mahout is an elephant rider, trainer or keeper**

Mahout at nearby elephant sanctuary
