WHY CHOOSE A SCHOOL MEAL?

We believe that enjoying a nutritiously balanced hot meal at lunchtime is a brilliant way for children to chat with friends, improve their social skills and encourage eating habits that will remain with them for life.

If you have a child in KS1 (Reception, Year 1 or Year 2) your child is automatically entitled to a school meal every day, **for free.**

On average families can **save £437 per child** throughout the school year. Plus, it saves time every morning too.

School meals by law must meet the School Food Standards. These standards ensure that when menus are developed, they are considerate of children's nutritional needs.

You can select your meals in advance via the school website:

www.goodlookincookin.co.uk

this ensures you always know what your child is eating.

EVERY DAY YOU CAN BE ASSURED THAT THE SCHOOL MENU WILL OFFER:

2 portions of fruits and vegetables

Starchy carbohydrates to provide energy

A dairy food item rich in calcium for strong bones and teeth

A protein source to support the body's growth and repair

DIETARY REQUIREMENTS

We are happy to help with a child's dietary requirements (Medically Certified), but **this responsibility must be shared between GLC, the school and the child's parents/carers.** Together we can ensure that the child only receives food that is suitable for their diet.

Although we are happy to provide dietary required meals some of our ingredients are externally sourced so therefore, **we cannot guarantee 100% against any allergy.**

If you have a child at school with any allergies who is going to eat with us, **please indicate which allergens they have when registering on the website.** They will be added to our special diet list so that we are fully aware. You can then order online as normal; **your selections will be provided to our kitchen team, who will ensure a suitable alternative meal is supplied to the school for your child.**

All our menus with any allergens are on our web site so that parents can access the relevant information.
