

## Year 5 Religious Education – Home learning tasks

This term we have been looking at how faith and beliefs impact how that person lives out their daily life and the actions that they take.

We have explored key beliefs within the Hindu religion and how this belief structure should/could affect attitudes, behaviour, treatment of others, worship and ways of living in the world. We investigated Mahatma Gandhi and how his belief in 'Ahimsa' (non-violence, not hurting or injuring any living thing) was the driving force in his actions, beliefs, campaigns and ultimately what brought about big change.

Since half term we have begun looking at the Muslim faith and how the beliefs and teachings of Islam impact the lives of the believer. The 5 pillars of Islam provide a good understanding of these main beliefs. The importance of their belief in one God, Allah, the emphasis that is put on prayer, fasting during Ramadan (to focus and pray for those who are less fortunate), giving to charity and going on pilgrimage (connecting more fully to sacred places in order to connect with God).

### Home learning task

I would love you to investigate one of the following inspirational Muslims and create a poster/biography about them. This must include:

- Who they are (name, age, profession, family background, place of birth, where they live now etc...)
- About their Muslim faith
- How their faith has made a difference in their life/how their faith has influenced their choices/how their faith has led them to bring about change.
