

For today's task, you will need a ruler. I would like you to measure each side of these shapes, labelling each side as you go. I would like you to measure each side to the nearest centimetre or to the nearest half a centimetre.

To find the perimeter ( $P$ ) of each shape, just add all the four measurements together.

a)

$P =$

b)

$P =$

c)

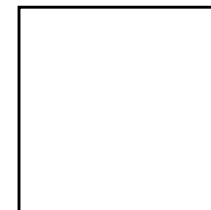

$P =$

d)

$P =$

e)

$P =$

Answers:

- a)  $P = 22\text{cm}$
- b)  $P = 33\text{cm}$
- c)  $P = 17\text{cm}$
- d)  $P = 26\text{cm}$
- e)  $P = 10\text{cm}$
