

PRIME NUMBERS TASK

23th April 2020

1. Can you remember what a prime number is? Have a look at the 'Prime Numbers Poster' using the link below: (I have also put a copy of this poster on our Year 6 webpage.)

<https://www.teachingideas.co.uk/multiplication/prime-numbers>

2. You could make your own 100 square and colour in the prime numbers - see how many you can remember. Can you spot any patterns to the numbers to help you remember which numbers are prime?

Use your 100 square to sing along to this prime number song:

https://www.youtube.com/watch?v=-U_wBA8_IW4

3. Now see whether you can complete this task which is on our Year 6 webpage, in the Mrs Wicks & Mrs Nicholl's Maths folder:

23.4.20 Prime Number Sequence Maze

(If you are unable to print the maze, create your own Prime Number Maze and send it to Year6@Nettleham-Junior.Lincs.sch.uk and I will look at solving it and sending it back to you!)
