This is the **Adaptation** song with the **camel** rapping. Lots of schools play this for **science**. I couldn't get hold ...

3. Choose 2 animals - Draw these animals and label their special adaption features that allow them to survive in their habitat. (obviously researching these first)

Extension - Complete the Adaption Sorting activity - see in task folder.

This accompanies the PowerPoint. P.13 - P.16 (3 star) are recommended for an average year 6
