

Year 6 RE – Our Responsibility for the world

Day 2

On your daily walk/exercise note down or photograph evidence and examples of how we as humans perhaps are not following through with their 'responsibility' to care and look after our world based on Psalm 8. Find a way to 'evidence' what you have found.

Evidence of the 'lack of care for our environment' that you find on your daily walk and/or in your house. (you can insert photographs, draw pictures or list what you find – this may be linked to litter, car fumes, wastage of water, use of plastics etc....)

How do these things have an effect on the environment and the world in which we live?
